In columns 9, 10, 11, 12, 16, 17, 18, 19, 20, an effort should be made to have only one of the figures 0 and 1 used in each case, except in the case of divorced persons, column 11, when the letter "D" is to be used.

In column 13, no person is to be returned as without occupation unless specially described as such. Every person who has been gainfully employed during the Census Year, whether regularly or occasionally, should have some occupation assigned to him, and the occupation returned should be that at which he has been employed the greater portion of the year. Thus, a person who has been a farmer for a part of the year, but has been employed during the remainder of the year as a mechanic, should be returned as a mechanic. The same rule should be followed in case of persons having two occupations. Where a person has been employed at two occupations for the same length of time, the occupation at which he has earned the most money should be returned. Where no money has been received, the occupation at which the most time has been given should be returned. Where a person has been employed at two occupations, and has received no money for either, the occupation to which he has given the most time should be returned. Where a person has been employed at two occupations, and has received no money for either, and has given the same time to each, the occupation at which he was employed last should be returned. Where a person has been employed at two occupations, and has received no money for either, and has given the same time to each, and has been employed at each the same length of time, the occupation at which he was employed last should be returned. Where a person has been employed at two occupations, and has received no money for either, and has given the same time to each, and has been employed at each the same length of time, and has been employed at each the same length of time, the occupation at which he was employed last should be returned.

In column 14, no person is to be returned as without occupation unless specially described as such. Every person who has been gainfully employed during the Census Year, whether regularly or occasionally, should have some occupation assigned to him, and the occupation returned should be that at which he has been employed the greater portion of the year. Thus, a person who has been a farmer for a part of the year, but has been employed during the remainder of the year as a mechanic, should be returned as a mechanic.
